RESPONSE

I. Introduction

This is in response to the Office Action mailed 3/7/03 (Paper No.20) in regard to the above-identified patent application. Reconsideration of the rejection of the claims is respectfully solicited in light of the following remarks.

REMARKS

The Examiner has objected to claims 2-6, 8-12, 14-19, 21-24, 27-32, 35-39 and 41-45 under 37 CFR 1.75(c) and incorporates by reference the reasons in the Office Action of 1/2/02. In that action he states that since the above claims recite functional limitations, they do not properly limit their respective independent apparatus claims.
